

Compilers

CMPT 432

– Lab 7

Goals	Semantic Analysis: Checking scope and type
Notes	Now that we have Concrete and Abstract syntax trees and a beautiful symbol table to go along with them, we can do scope and type checking. How cool!
Resources	<i>Crafting a Compiler</i> <ul style="list-style-type: none">• Reread chapters 8.1-3 and 9.1 <i>Dragon</i> <ul style="list-style-type: none">• Read chapters 2.8.3 and 6.5; reread chapter 6.3• Do exercise 6.3.1
Submitting	Commit a PDF of your work to your GitHub repository and I'll take a look at it.
